MESD at a glance

- Multnomah Education Service District is a public agency responsible for a variety of direct and indirect educational services to eight Multnomah County school districts as well as other public and private agencies and schools in the region.
- In 2007-08, MESD manages expenditures of approximately \$78 million and employed about 750 full, part-time and temporary staff.
- Multnomah ESD saves tax dollars by using efficient delivery strategies within a cooperative system of shared services and programs. In essence, Multnomah ESD's services are those best managed on a regional basis either because they are too costly for an individual district to support, or because demand for the service within a single district is limited.
- MESD's programs and staff have been consistently recognized for excellence by local, regional and national organizations. In 2007, MESD was listed among the nation's top 12 education service agencies.

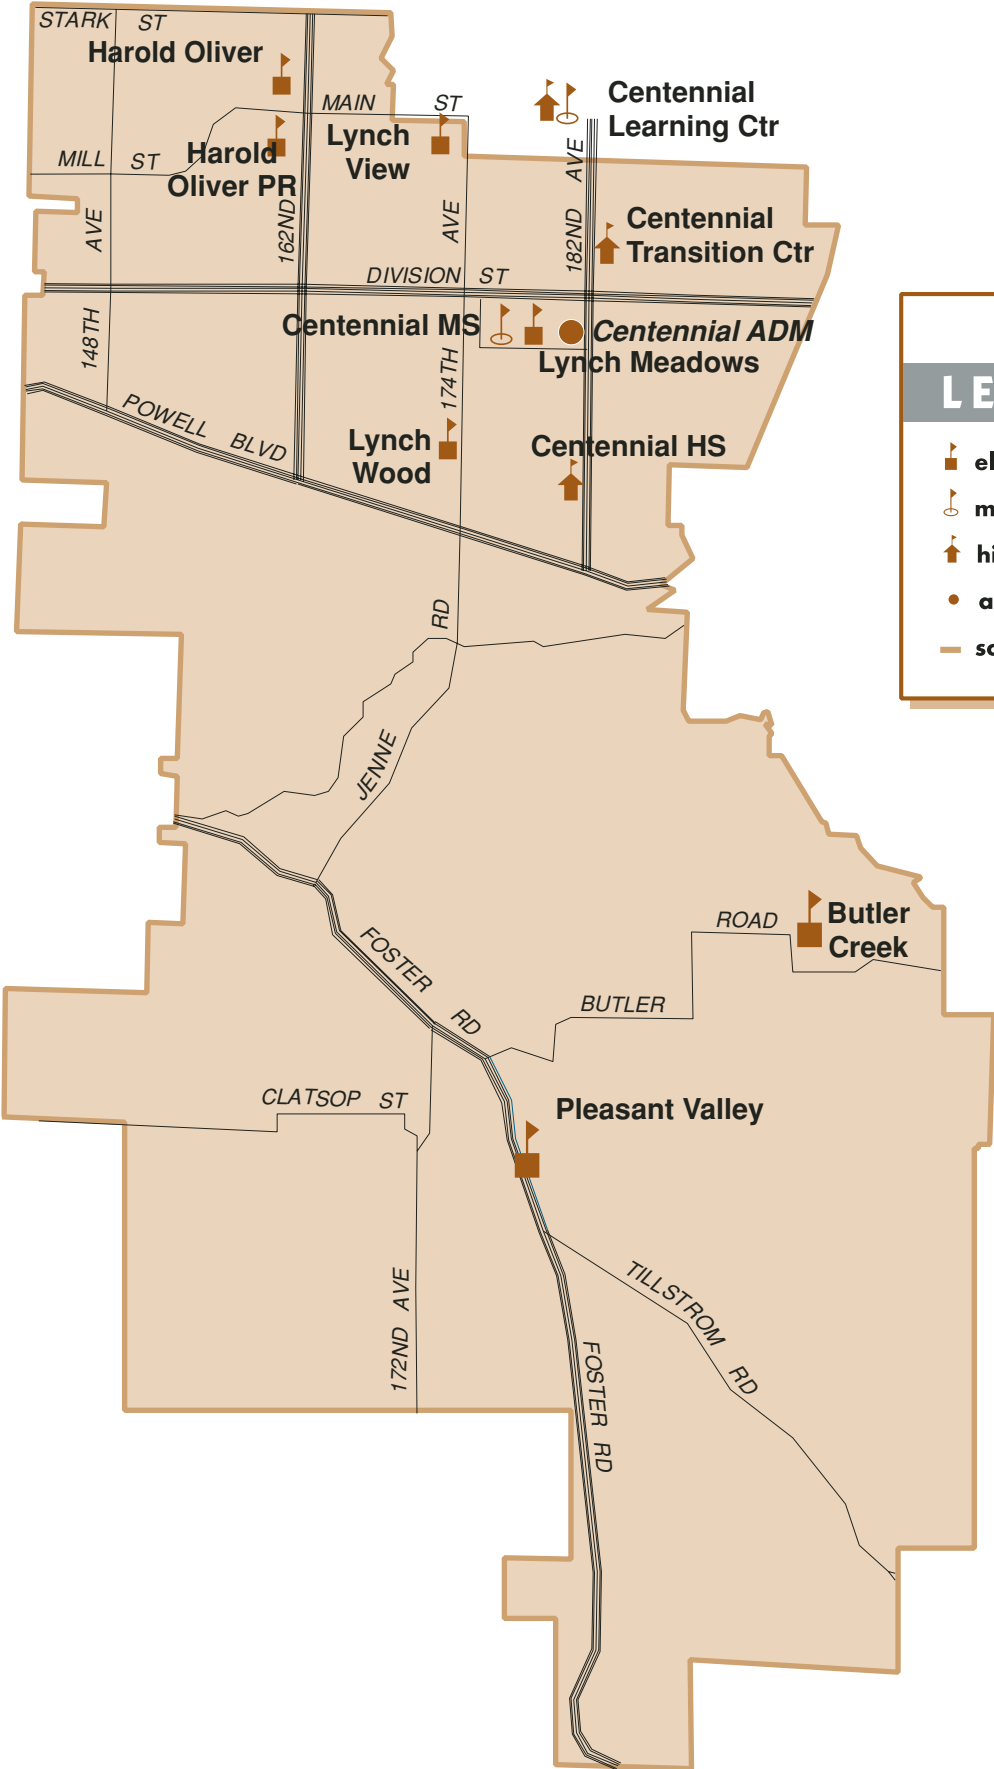

Funding

- MESD has a diversified funding mix with 45 percent coming from state and local tax revenue and 55 percent from contracts, grants, tuition, Medicaid, interest and fees.
- MESD's "menu" of services allows component districts ultimate choice in program selection. There are over 50 separate "resolution" services and programs from which component districts choose to spend their annual allocation. In addition, numerous programs are operated on a contracted or fee-for-service basis. Several other grant-funded projects are also managed by MESD.

Fiscal Accountability and Cost Containment

- Multnomah ESD operates under the financial oversight of an elected board. Program operation is guided by Oregon statutes and administrative rules. MESD's programs are audited annually by an independent CPA.
- Ninety percent of MESD's General Fund revenue is spent on direct services to component districts and ten percent is used for administrative costs, in accordance with Oregon law. By operating within this "90/10" requirement, MESD's specialized, quality programs and services are provided at an affordable cost.
